APPROVED FOR
RELEASE

12 MAR 1979

1. Attached is a copy of the diary William F. Friedman kept of an overseas trip in October 1946, which was part of his official papers. In 1977, we sent a copy with the same deletions (on pp. 10, 23 and 25) to Mr. Friedman's son, to be forwarded to Mr. Friedman's biographer, Mr. Ronald Clark. (This was done with approval of D/DIR and Chief, D4).

2. Recently we received a request for a copy of this diary from Mr. Tony Crawford, Archivist of the George C. Marshall Library, where Mr. Friedman's private papers are preserved as a separate Collection. As you know, General Marshall Carter is president of the Marshall Foundation, and he and his people have worked closely with us in all matters relative to the Friedman Collection. The unclassified material in this Collection is open to professional scholars and researchers.

3. Request review and guidance.
